

# Faculty of Law

## Scent-Free Policy

*Due to the health concerns arising from exposure to scented products, including serious allergic reactions, the Faculty of Law is instituting a policy to provide a scent-free environment for all employees and visitors (other faculties, including Social Work, Music, and Arts, have adopted similar policies).*

The University of Manitoba has adopted a *Clean Air Procedure* as part of its Health and Safety Policy, located here:

[http://umanitoba.ca/admin/governance/governing\\_documents/staff/688.html](http://umanitoba.ca/admin/governance/governing_documents/staff/688.html)

All employees, students and visitors are asked to refrain from using **scented products**, including perfumes, hairsprays, aftershaves, etc.

Similarly, all materials used for **cleaning** will be scent-free (a list of locally-available scent-free products is available from the Occupational Health & Safety Office).
